Sources of Codes:

- ICD-10-CM (2018) – [National Center for Health Statistics \(NCHS\)](#)
- CPT (2018) – [American Medical Association \(AMA\)](#)
- Code on Dental Procedures and Nomenclature CDT Code (2018) – Dental Procedure Codes. [American Dental Association \(ADA\)](#)

Note: “X” in a code denotes any number including the absence of a number in that place. Dashes (–) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect if a code is billable or not. Instead they are used to point out that other codes in the series are to be considered.

Table 6B: Quality of Care Measures

Reporting Period: January 1, 2018, through December 31, 2018

Appendix D: Health Center Health Information Technology (HIT) Capabilities

Instructions

The HIT Capabilities Form includes a series of questions on HIT capabilities, including EHR interoperability and eligibility for Meaningful Use. The HIT Form must be completed and submitted as part of the UDS submission. The first part includes questions about the health center's implementation of an EHR, certification of systems, and how widely adopted the system is throughout the health center and its providers.

Questions

The following questions appear in the EHB. Complete them before you file the UDS Report. Instructions for the HIT questions are on screen in EHB as you complete the form. Respond to each question based on your health center *status as of December 31*.

1. Does your center currently have an Electronic Health Record (EHR) system installed and in use?
 - a. Yes, installed at all sites and used by all providers
 - b. Yes, but only installed at some sites or used by some providers

If the health center installed it, indicate if it was in use by December 31, by:

- a. **Installed at all sites and used by all providers:** For the purposes of this response, "providers" mean all medical providers, including physicians, nurse practitioners, physician assistants, and certified nurse midwives. Although some or all of the dental, mental health, or other providers may also be using the system, as may medical support staff,

this is not required to choose response a. For the purposes of this response, "all sites" means all permanent sites where medical providers serve health center medical patients and does not include administrative-only locations, hospitals or nursing homes, mobile vans, or sites used on a seasonal or temporary basis. You may check this option even if a few, newly hired, untrained employees are the only ones not using the system.

- b. **Installed at some sites or used by some providers:** Select option b if one or more permanent sites did not have the EHR installed, or in use (even if this is planned), or if one or more medical providers (as defined above) do not yet use the system. When determining if all providers have access to the system, the health center should also consider part-time and locum providers who serve clinic patients. Do not select this option if the only medical providers who did not have access were those who were newly hired and still being trained on the system.
- c. No
Select "no" if no EHR was in use on December 31, even if you had the system installed and training had started.

This question seeks to determine whether the health center installed an EHR by December 31 and, if so, which product is in use, how broad is access to the system, and what features are available and in use. Do

not include PMSs or other billing systems even though they can often produce much of the UDS data. If the health center purchased an EHR, but has not yet placed it into use, answer “no.”

If a system is in use (i.e., if a or b has been selected above), indicate it has been certified by the Office of the National Coordinator - Authorized Testing and Certification Bodies.

1a. Is your system certified by the Office of the National Coordinator for Health IT (ONC) Health IT Certification Program?

- a. Yes
- b. No

Health centers are to indicate in the blanks the vendor, product name, version number, and ONC-certified health IT product list number. (More information is available at <https://chpl.healthit.gov/#/search>) If you have more than one EHR (if, for example, you acquired another practice with its own EHR), report the EHR that will be the successor system.

1b. Did you switch to your current EHR from a previous system this year?

- a. Yes
- b. No

If “yes, but only at some sites or for some providers” is selected above, a box expands for health centers to identify how many sites have the EHR in use and

how many (medical) providers are using it. Please enter the number of sites (as defined above) where the EHR is in use and the number of providers who use the system (at any site). Include part-time and locum medical providers who serve clinic patients. Count a provider who has separate login identities at more than one site as just one provider.

1c. How many sites have the EHR system in use?

1d. How many providers use the EHR system?

1e. When do you plan to install the EHR system?

With reference to your EHR, BPHC would like to know if your system has each of the specified capabilities that relate to the CMS Meaningful Use criteria for EHRs and if you are using them (more information on [Meaningful Use](#)). For each capability, indicate:

- a. **Yes** if your system has this capability and it is being used by your center;
- b. **No** if your system does not have the capability or it is not being used; or
- c. **Not sure** if you do not know if the capability is built in and/or do not know if your center is using it.

Select “a” (has the capability and it is being used) if the software can perform the function and some or all of your medical providers are using it. It is not necessary for all providers to be using a specific capability in order to select “a.”

Select “b” or “c” if the capability is not present in the software, if the capability is present, but still unused, or if it is not currently in use by any medical providers at

your center. Select "b" or "c" only if none of the providers use the function.

2. Does your center send prescriptions to the pharmacy electronically? (Do not include faxing.)
 - a. Yes
 - b. No
 - c. Not sure
3. Does your center use computerized, clinical decision support, such as alerts for drug allergies, checks for drug-drug interactions, reminders for preventive screening tests, or other similar functions?
 - a. Yes
 - b. No
 - c. Not sure
4. Does your center exchange clinical information electronically with other key providers/health care settings, such as hospitals, emergency rooms, or subspecialty clinicians?
 - a. Yes
 - b. No
 - c. Not sure
5. Does your center engage patients through health IT, such as patient portals, kiosks, or secure messaging (i.e., secure email) either through the EHR or through other technologies?
 - a. Yes
 - b. No
 - c. Not sure
6. Does your center use the EHR or other health IT system to provide patients with electronic summaries of office visits or

other clinical information when requested?

- a. Yes
 - b. No
 - c. Not sure
7. How do you collect data for UDS clinical reporting (Tables 6B and 7)?
 - a. We use the EHR to extract automated reports
 - b. We use the EHR but only to access individual patient charts
 - c. We use the EHR in combination with another data analytic system
 - d. We do not use the EHR
 8. Are your eligible providers participating in the Centers for Medicare and Medicaid Services (CMS) EHR incentive program, commonly known as Meaningful Use?
 - a. Yes, all eligible providers at all sites are participating
 - b. Yes, some eligible providers at some sites are participating
 - c. No, our eligible providers are not yet participating
 - d. No, because our providers are not eligible
 - e. Not sure

If yes (a or b), at what stage of Meaningful Use (MU) are the majority (more than half) of your participating providers attested (i.e., what is the stage for which they most recently received incentive payments)?

- a. Received MU for Modified Stage 2
- b. Received MU for Stage 3
- c. Not sure

If no (c only), are your eligible providers planning to participate?

- a. Yes, over the next 3 months
- b. Yes, over the next 6 months
- c. Yes, over the next 12 months or longer
- d. No, they are not planning to participate

9. Does your center use health IT to coordinate or to provide enabling services, such as outreach, language translation, transportation, case management, or other similar services?

- a. Yes
- b. No
- c. If yes, specify the type(s) of service:

Appendix E: Other Data Elements

Instructions

Health centers are becoming increasingly diverse and comprehensive in the care and services provided. These questions capture the changing landscape of healthcare centers to include expanded services and delivery systems.

Questions

Report on these data elements as part of your UDS submission. Topics include medication-assisted treatment (MAT), telehealth, and outreach and enrollment assistance. Respond to each question based on your health center status *as of December 31*.

1. Medication-Assisted Treatment (MAT) for Opioid Use Disorder
 - a. How many physicians, certified nurse practitioners and physician assistants¹, on-site or with whom the health center has contracts, have obtained a Drug Addiction Treatment Act of 2000 (DATA) waiver to treat opioid use disorder with medications specifically approved by the U.S. Food and Drug Administration (FDA) for that indication?
 - b. How many patients received medication-assisted treatment for opioid use disorder from a physician, certified nurse practitioner, or physician assistant, with a DATA waiver working on behalf of the health center?

2. Did your organization use telehealth in order to provide remote clinical care services?

(The term "telehealth" includes "telemedicine" services, but encompasses a broader scope of remote healthcare services. Telemedicine is specific to remote clinical services whereas telehealth may include remote non-clinical services, such as provider training, administrative meetings, and continuing medical education, in addition to clinical services.)

- a. Yes
 - 2a1. Who did you use telehealth to communicate with? (Select all that apply)
 - a. Patients at remote locations from your organization (e.g., home telehealth, satellite locations)
 - b. Specialists outside your organization (e.g., specialists at referral centers)
 - 2a2. What telehealth technologies did you use? (Select all that apply)
 - a. Real-time telehealth (e.g., video conference)
 - b. Store-and-forward telehealth (e.g., secure email with photos or videos of patient examinations)
 - c. Remote patient monitoring
 - d. Mobile Health (mHealth)

¹ With the enactment of the Comprehensive Addiction and Recovery Act of 2016, Public Law 114-198, opioid treatment

prescribing privileges have been extended beyond physicians to include certain qualifying nurse practitioners (NPs) and physicians' assistants (PAs).

2a3. What primary telehealth services were used at your organization? (Select all that apply)

- a. Primary care
- b. Oral health
- c. Behavioral health: Mental health
- d. Behavioral health: Substance use disorder
- e. Dermatology
- f. Chronic conditions
- g. Disaster management
- h. Consumer and professional health education
- i. Other (Please specify: _____)

b. No. If you did not have telehealth services, please comment why (Select all that apply).

- 1. Have not considered/unfamiliar with telehealth service options
- 2. Lack of reimbursement for telehealth services
- 3. Inadequate broadband/telecommunication service (Select all that apply)
 - i. Cost of service
 - ii. Lack of infrastructure
 - iii. Other (Please specify: _____)
- 4. Lack of funding for telehealth equipment
- 5. Lack of training for telehealth services
- 6. Not needed
- 7. Other (Please specify: _____)

3. Provide the number of all assists provided during the past year by all trained assisters (e.g., certified application counselor or equivalent) working on behalf of the health center (employees, contractors, or volunteers), regardless of the funding source that is supporting the assisters' activities. Outreach and enrollment assists are defined as customizable education sessions about affordable health insurance coverage options (one-on-one or small group) and any other assistance provided by a health center assister to facilitate enrollment.

Enter number of assists

Note: Assists do not count as visits on the UDS tables.
