

RAPID

Reporting Assistance and Process
Improvement Discussion

Session 1

Vision: Healthy Communities, Healthy People

About Us

Let's take a moment to get to know each other!

Required UDS Reporting

[Health Center Compliance Manual](#) Chapter 18:

The health center has a system in place for overseeing the operations of the Federal award-supported activities to ensure compliance with applicable Federal requirements and for monitoring program performance. Specifically:

- The health center has a system in place to collect and organize data related to the HRSA-approved scope of project, as required to meet HHS reporting requirements, including those data elements for Uniform Data System (UDS) reporting; and
- The health center submits timely, accurate, and complete UDS reports in accordance with HRSA instructions and submits any other required HHS and Health Center Program reports.

Meaning, it is each health center's responsibility to have the capabilities to collect and report the information required.

Clinical Quality Measures in the UDS

THE IDEAL

Measures set a base expectation for patient care, in the form of quality measures are based on US Preventative Services Task Force (USPSTF) or other evidence-based recommendations, across clinics, areas, patient populations, etc. that ideally brings all care toward high quality, equitable care.

THE REALITY

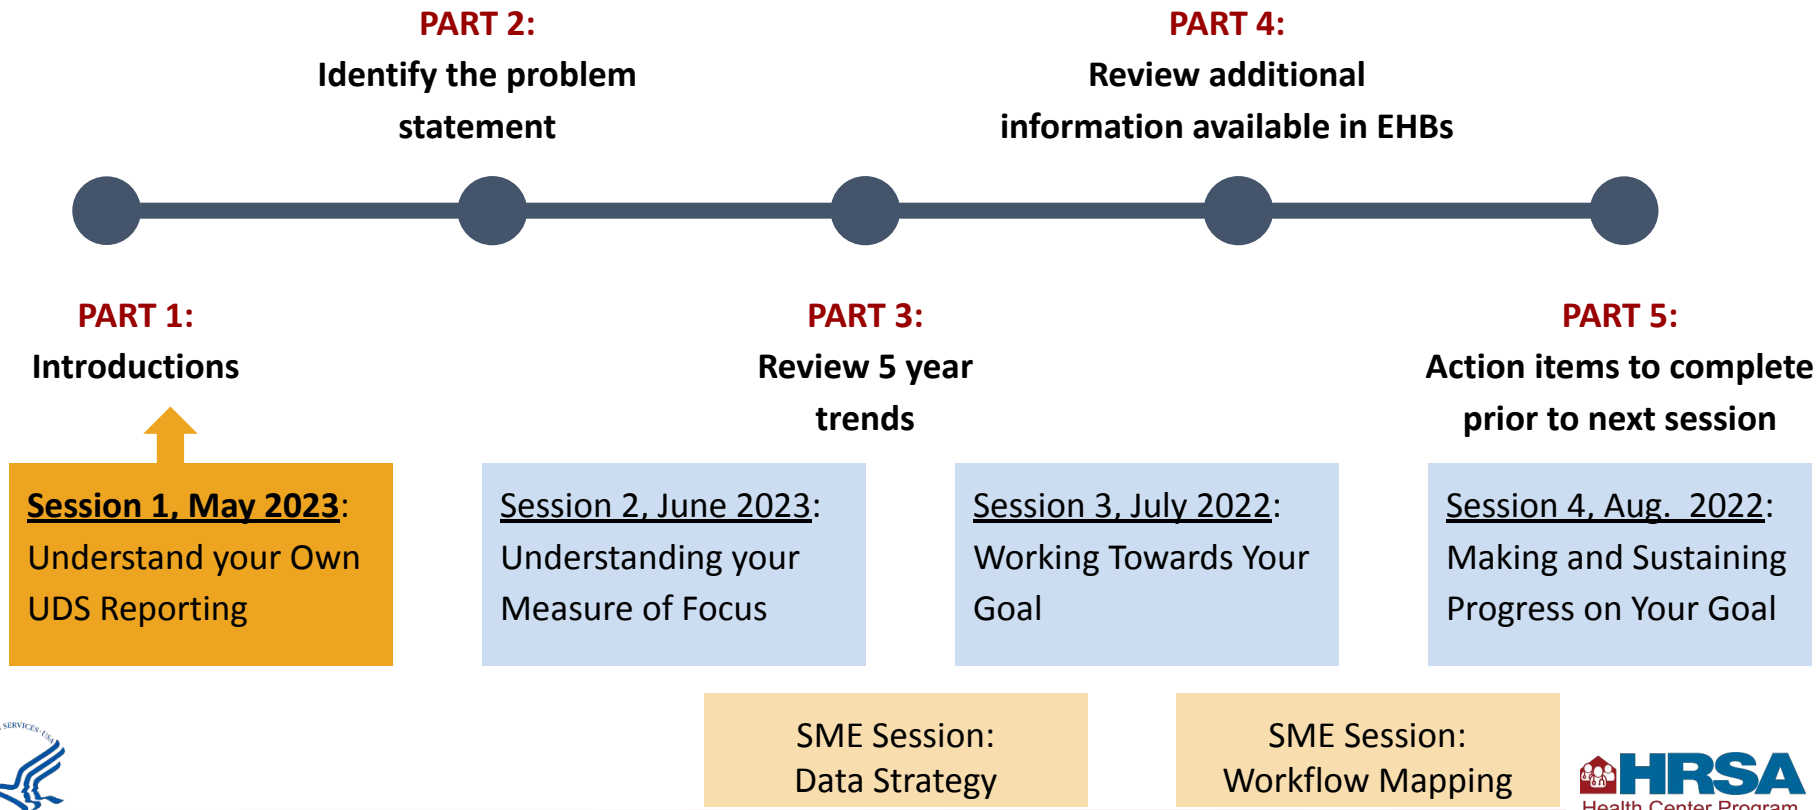

Measures might be more accurately described as measuring the *documentation* of patient care and whether *that documentation* aligns with measures that indicate high value care.

Require work across many levels-- addressing patient hesitation/ barriers, addressing staff hesitation/ barriers, addressing capacity, awareness, and structural barriers for all involved.

Roadmap for Today

Cervical Cancer Screening CMS124v11

Percentage of women 21-64 years of age who were screened for cervical cancer using either of the following criteria:

- Women age 21-64 who had cervical cytology performed within the last 3 years
- Women age 30-64 who had cervical human papillomavirus (HPV) testing performed within the last 5 years

Part 2

Problem Statement

What is the problem we are trying to solve?

We are	Who are we?	We are a health center that serves...
Trying to	What are we trying to achieve?	Trying to increase the number of patients who receive...
but	What are the problems or barriers that are hampering progress?	But we have a hard time....
because	Describe the reason the problems or barriers persist (the root cause)	Because we often don't....
Which makes us feel	Describe the concerns or emotions this brings about	Which makes us feel like we...

First parts of problem statement

We are...

Chat in a very brief explanation of your health center.

Examples: We are a healthcare for the homeless clinic... OR We are a small, rural health center... OR We are a large, multi-site health center.

Trying to...

Chat in a very brief explanation of what you are trying to achieve around this measure.

Examples: Trying to improve the number of patients whose chart shows that they received...

First parts of problem statement

But...

Chat in a a brief synthesis of the barriers that have prevented you from achieving what you're trying to do.

Examples: But we rarely receive the needed historical or specialty records OR But we don't have a great outreach/recall process.

Because...

Chat in the reason the problems or barriers persist (the root cause of the barriers).

Examples: Trying to improve the number of patients with

Action Item 1

You will **write your own problem statement** using the template we just discussed. You'll submit this with your other action items between this session and session 2.

Part 3

Review 5 Year Trends

Reason to Review Reports and Historical Data

Look at the bigger picture.

Looking at the actual information that HRSA has helps situate the health center's experience/outcomes. Also assists with seeing your own larger trends.

Goal setting relies on context (what progress or rate is likely achievable?) May be monitoring monthly, but are benchmarks used? Are comparisons made?

DATA IS THE CURRENCY OF ADVOCACY. Standardized, reputable, reliable data is essential to communicating the importance and value of the work being done.

Many Reports and Insight Available!

Information on HRSA site and UDS Mapper

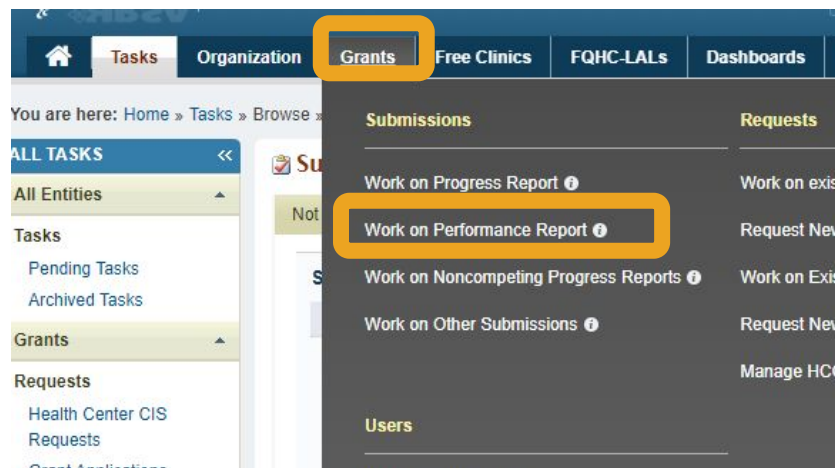

Available to the public on HRSA site and UDS Mapper site.

data.[HRSA.gov](https://data.hrsa.gov)

Reports in the Electronic Handbooks

Available to health centers, PCAs, and other health center program stakeholders.

HRSA Health Center Data & Reporting Site: <https://data.hrsa.gov/tools/data-reporting/program-data/national>

UDS Mapper Website: <http://www.udsmapper.org/> EHBS: <https://grants.hrsa.gov/2010/WebEPSExternal/Interface/common/accesscontrol/login.aspx>

data.HRSA.gov: New Look, New Options

Health center, state, and national profiles.

Health Center Program UDS Data

View national, state/territory, and health center UDS data profiles for Health Center Program awardees and look-alikes.

Patient Characteristics Snapshot

View a national summary of UDS data on poverty level, insurance status, and race and ethnicity of patients served by Health Center Program awardees and look-alikes.

Special Populations Funded Programs

View UDS data from health centers that receive grant funding to serve special populations through the Health Care for the Homeless, Migrant Health Centers and Public Housing Primary Care programs.

Data Comparisons

View how one state/territory compares to the national average or to another state/territory on key UDS data points: total number of patients served by service category, target populations, and other patient characteristics.

National view of demographics and services by special population grant.

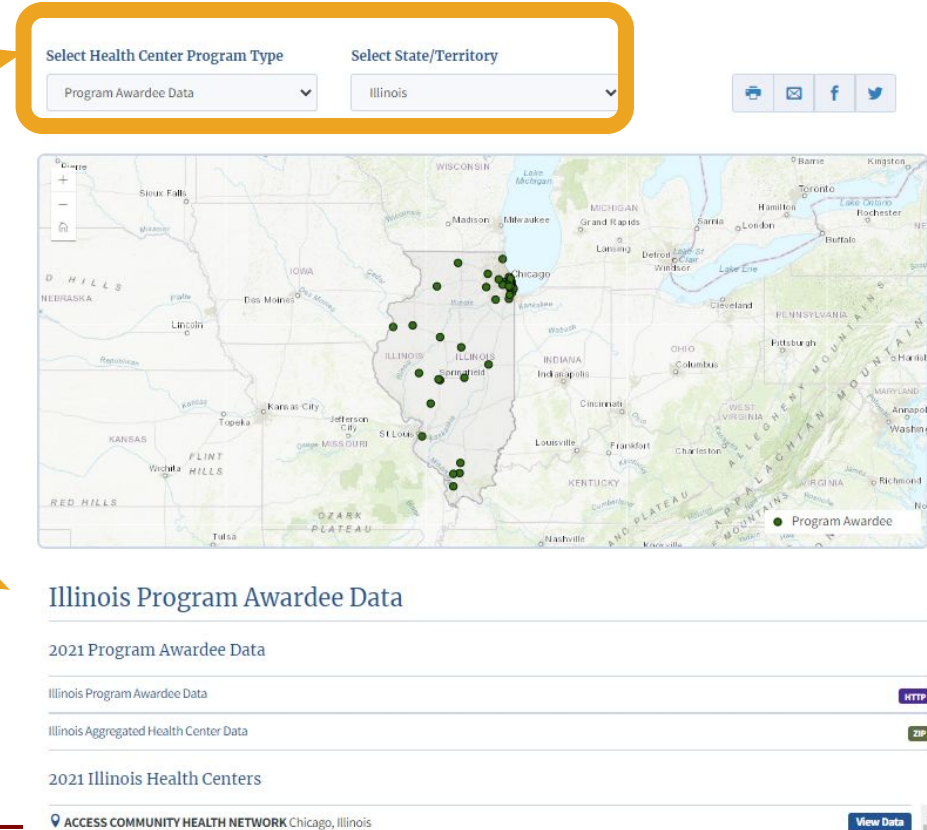

Comparison between states and territories on key statistics.

Screenshot from <https://data.hrsa.gov/tools/data-reporting>

Access State and Health Center Data Profiles

1. Select **program type**
2. Then select **State/ Territory**
3. Then scroll down and select either [State] **Program Awardee Data** to see the state or continue to scroll down to your health center, and click view data there.

The screenshot displays the ACCESS Community Health Network interface. At the top, there are two dropdown menus: "Select Health Center Program Type" (set to "Program Awardee Data") and "Select State/Territory" (set to "Illinois"). An orange arrow points from the first step of the instructions to the "Program Awardee Data" dropdown. Below these menus is a map of the United States with green dots indicating health center locations, primarily concentrated in Illinois. Another orange arrow points from the third step of the instructions to the map. Below the map, the page title "Illinois Program Awardee Data" is shown. Underneath, there are sections for "2021 Program Awardee Data", "Illinois Program Awardee Data" (with an "HTTP" button), "Illinois Aggregated Health Center Data" (with a "ZIP" button), and "2021 Illinois Health Centers". At the bottom, there is a "View Data" button and a footer that reads "ACCESS COMMUNITY HEALTH NETWORK Chicago, Illinois".

Health Center Program Grantee and LAL Profiles

Profiles **each state's** and **each health center's** performance

- Five years of data trends
- Service area maps
- Clinical and quality care award badges
- Program requirements (non-compliance conditions)

Shows **FIVE(!)** years of data for selected categories

- Age and race/ethnicity
- Patient characteristics
- Services
- **Clinical data**
- Cost data

Also, by UDS Table!

Access health center program profiles on <https://data.hrsa.gov/tools/data-reporting/program-data>

Missouri Health Center Program Uniform Data System (UDS) Data

Clinical Data section includes:

- Patients with Medical Conditions
 - Calculated from Table 6A as a % of adult medical patients
- Quality of Care Measures in three areas:
 - Perinatal Health
 - Preventative Health Screening & Services,
 - Chronic Disease Management

Details on the calculations for all of this can be reviewed [here](#).

Expanded Summaries for 2021 UDS Data Tables

- View Full 2021 State Report

Health Center Tables for CY2022

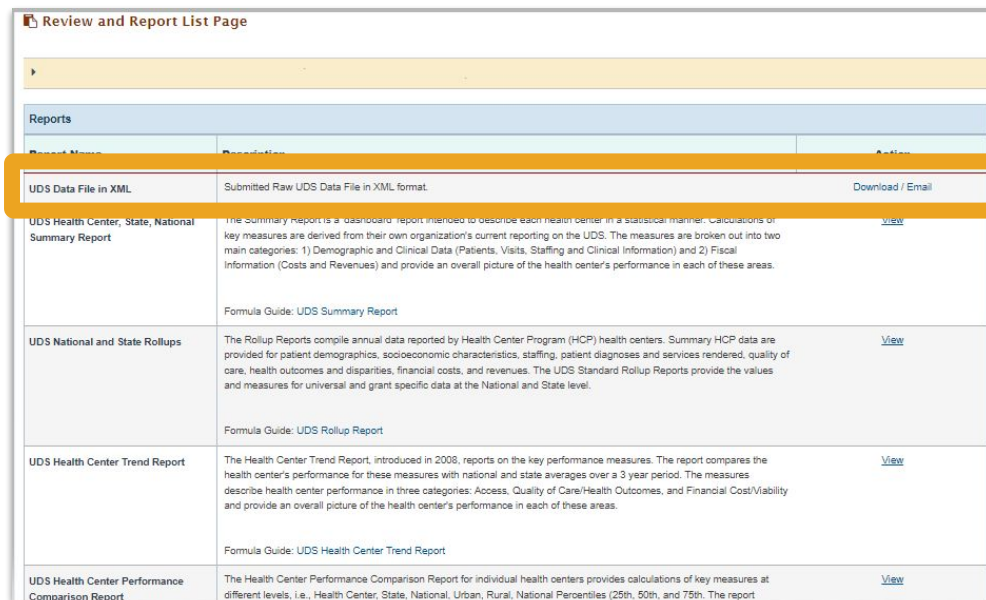

- One calendar year of health center data for each of the 11 UDS tables and three forms
 - Patient demographics, staffing, services provided, clinical processes and outcomes, patients' use of services, costs, and revenues
 - Forms:
 - Appendix D: Health information technology (HIT) capabilities; Appendix E: Other Data Elements; Appendix F: Workforce
- UDS tables are used to:
 - Evaluate health center performance for one calendar year to identify accomplishments and opportunities for quality improvement
 - Document the operation and performance of health center(s)
 - Calculate metrics relevant to each health center

Available from EHBs in June each year

Several Options for Format/ Views

- Scroll down on this page if you just want to view an individual table.
- **Download or email XML data file:** A data extract file of finalized calendar year data that can be imported into external programs (e.g., Excel) for customized review of data
- The XML data are:
 - Used to aggregate your data with that of other health centers to provide state and national snapshots
 - Available to Health Centers and to PCAs, to analyze data for communities and states

Available from EHBs in June - Currently available for 2021!

Do you download prior year data each year?

If so, when and what do you do with it? What value does it provide?

Action Item 3

Access or download your **2022 UDS data** *for the measure of focus on Table 6B*. You will use this to compare to your own prior years and state averages, which you'll then use to answer some questions.

UDS Rollup Report

UDS Rollup Report

- Structured **similarly** to the UDS tables
- All data elements reported on each of the UDS tables and forms are used
 - Patient profile
 - Staffing full-time equivalent (FTE), staff tenure, and utilization
 - Clinical profile
 - Financial profile
 - HIT and Other Data Elements forms
- **Compiles and aggregates annual data:** Reported by health centers at national, state, and grant (HCH, MHC, PHPC) levels
- Calculates **averages** (for some tables)

Typically available in EHBs and on HRSA data site in Summer

Value of the UDS Rollup Report

- Comparable with health center's own data to place data in context
- Helpful for **calculating additional variables** that may not be provided in standard available reports
- Provides **insights** into services and rates at state or national level
- Reported to Congress to meet **legislative and regulatory requirements**
- Evaluated by stakeholders (HRSA, health centers, researchers, and others) as a one-year snapshot of Health Center Program performance

UDS Rollup Report Snapshot: Table 6B

Section D - Cervical and Breast Cancer Screening			
Line	Cervical Cancer Screening	Total Female Patients Aged 23 through 64 (a)	Estimated Number of Patients Tested
11.	MEASURE: Percentage of women 23-64 years of age who were screened for cervical cancer	7,564,301	4,084,322
			53.99%
Line	Breast Cancer Screening	Total Female Patients Aged 51 through 73 (a)	Estimated Number of Patients with Mammogram
11a.	MEASURE: Percentage of women 51-73 years of age who had a mammogram to screen for breast cancer	3,420,020	1,719,755
			50.28%
Section L - Depression Measures			
Line	Preventive Care and Screening: Screening for Depression and Follow-Up Plan	Total Patients Aged 12 and Older (a)	Estimated Number of Patients Screened for Depression and Follow-up Plan Documented as Appropriate
21.	MEASURE: Percentage of patients 12 years of age and older who were (1) screened for depression with a standardized tool and, if screening was positive, (2) had a follow-up plan documented	15,995,448	11,200,559
			70.02%

This is a national-level example, you can also access your state or health center-specific rollup.

Provides **% of patients who meet the measure** in the final column.

Provides estimated **Raw Numbers** for Numerator, because some are reported by samples.

Table 7 Rollup provides clinical quality detail as well.

Rollups are in UDS table format with additional information added to the table.

UDS Summary Report

UDS Summary Report

- Provides a calendar year summary and analysis of health centers' UDS data using measures calculated across tables
- Includes comparisons
 - Health center **raw values** and **averages**
 - Health centers compared to **state** and **nation**
- Presents data in **six** categories
 - Patients, Visits, Staffing, Quality of Care Indicators/
Health Outcomes, Costs, and Revenue, and Adjustments
- Formula Guide is available in the EHBs

Value of the UDS Summary Report

- Report includes data from each of the 11 UDS tables and 3 forms
- Used to compare health centers' data with national and state averages
- Inclusive of both raw values and percentages
 - Percentages - Often more useful than raw numbers when comparing the health center to the state or the nation

What is the value of the information from the Summary Report that we just reviewed?

UDS Health Center Performance Comparison Report

UDS Health Center Performance Comparison Report

- Provides a calendar-year summary and analysis of **health centers' UDS data** and performance
- Provides two sets of data
 - Quality of care indicators/health outcomes
 - Cost of care indicators
- Presents several levels of comparisons
 - Healthy People 2020 + 2030 goals (where available)
 - Averages for various comparison groups
 - Percentiles for financial data
 - Adjusted quartile ranking per clinical measure

Typically available from EHBs in August

Value of the UDS Health Center Performance Comparison Report

The performance measures:

- Report quality of care/health outcome and cost measures
- Are used to **compare against national benchmarks** and performance of **health center peers**
- Show health centers' HRSA-generated **adjusted quartile rankings** for clinical measures
- Include national percentile references for cost data

Health Center Program											

Health Center Program

What can you (or do you) do with this information?

How may these four categories of data play into your work? How would you/ could you use them in your work?

Adjusted Quartiles

- **Adjusted quartiles:** Ranking a health center's clinical quality measures compared to other health centers
- Health center characteristics in calculation:
 - Percent of uninsured patients
 - Percent of patients who are racial/ ethnic minority
 - Percent of patients experiencing homelessness
 - Percent of agricultural worker patients
 - Electronic health record (EHR) status
- **Quartile rankings:** 1 (highest 25 percent) to 4 (lowest 25 percent)

For more information on adjusted quartile for your health center, go to:

- <https://bphc.hrsa.gov/datareporting/reporting/ranking.html>

For more on the reimagined QIA, now called **Community Health Quality Recognition (CHQR)**, go to:

Part 5

Wrapping Up:

Action Items Prior to Our Next Session

Complete Action Items Before Next Session

Develop your problem statement in **one sentence** using the following template:

We are a health center that serves *[describe area and patient population]* trying to *[describe the improvement you are trying to make on the measure of focus]* but *[describe the problems or barriers holding back that improvement]* because *[describe the root cause of the barriers or the underlying cause that the challenge persists]* which makes us feel *[how your health center feels about this problem]*.

Pull your reports to see your recent performance and trends

Log into the EHB to access recent data and reports.

Visit the [Health Center Program Uniform Data System \(UDS\) Data Overview](#) for national, state, and health center trends.

Submit Action Items before Next Session

**Complete 5
question
Google Form
with Action
Items.**

- Select your health center.
- Select the measure we're working on.
- Share your problem statement.
- Share your CY2022 compliance rate on our measure of focus.
- Share whether your current rate is above or below the national average.
- Share whether you have been trending up or down and by how much.

Next Session

Review measure in detail, deep diving specifications.

Review FAQs for our measure, discuss the answers and how additional information can be found.

Mapping your current process to identify opportunities for improvement.

Accessing UDS Data

- Reports and information accessible only to health centers: Through [EHBs](#) using your secure log-in.
- BPHC Training Website:
<https://bphc.hrsa.gov/data-reporting/uds-training-and-technical-assistance>
