

Session 2 Depression Screening and Follow Up

- **Action item:** Complete first 6 Preparation steps in [eCQM Implementation Checklist | eCQI Resource Center](#)
- **Action item:** Access measure specifications
 - [Preventive Care and Screening: Screening for Depression and Follow-Up Plan | eCQI Resource Center](#)
 - Click on the *Specifications and Data Elements* tab for more, and under the *Attachment* header toward the top, you will find more helpful links, including a PDF of the eCQM Flow for this measure.
- Remember, [this video](#) gives you an overview of how to access and what you'll find there, and [this video](#) shows how to access all of the codes for valuesets.
 - Note that these videos are a few years old at this point, so there have been a few changes to where certain resources are, but the videos are still helpful for understanding how to navigate.
- **Action Item:** Through reviewing the specifications and studying your current processes, do the following:
 - Identify one specific component where patient records ARE meeting the measure specifications (where you can say, this is definitely not a problem that is impacting performance on the measure).
 - Identify one specific component where the patient records are NOT meeting the measure specifications (where you can say, this probably IS a problem that is impacting performance on the measure)
- **Complete your Action Work:** Share your finding from completing the steps above through [this google form](#) by **August 5, 2024.**
